America Competes Act (H.R. 4521)

- **Promotes Chinese energy over American** - \$3 billion solar manufacturing program that benefits China's dominance in Solar.
- **Biden regime** - kills domestic mining projects and block oil and gas leasing sales.
- **Green slush fund - \$8 billion** to unaccountable “green climate” slush fund at the UN, which has awarded **\$100 million to China**, subsidizes the CCP Party and slave labor/genocide solar panels and batteries.
- **Climate Change Officers** - At potentially every U.S. embassy, consulate, and diplomatic mission abroad responsible for focusing U.S. international efforts on climate change policy and programming.

America Competes Act (H.R. 4521)

- **Ignores human rights abuses** - Appeases China - omitting “genocide” from provisions on human rights abuses in Xinjiang, despite the House having voted twice to call it genocide.
- **Hurts small businesses.** Adds burdensome Davis-Bacon requirements, giving unions unfair advantages over small businesses and independent workers. Will significantly jeopardize our ability to compete with China.
- **CRT Promotion - \$5 million** to create a Chief Diversity Officer at the National Science Foundation and direct the NSF to ensure diversity, equity and inclusion in the technology sector.
- **CCP can BUY visas** - New visa program allows Chinese investors (= CCP government) to purchase visas, start a company in the U.S., and then import workers from China with additional visas.
