Leachate Dumping in Young Harris

- NPDES Permit # GA002246 for Water Pollution Control Plant Expired in March of 2022. GA EPD Administratively extended - Addl stricter monitoring with renewal?
- Contacted MountainTrue for help in testing and stopping.
- Director of MT (Callie Moore): Aware, Common Practice
Small amount of leachate, Testing (organics) Brasstown
Creek is clean. **MT Needs volunteer water testers, will train.**

Leachate Dumping in Young Harris

- My Reply:
- 507,000 gallons of leachate per month is small?
- YH exceeded the GA EPD limit of 25,000 gallons per day for industrial waste in 4 of last 11 months: March, April, May & December of 2022.
- leachate contributing well over 5% of the plant's permitted flow of 240K gallons per day, 2X allowance, in 6 of last 11

Leachate Dumping in Young Harris

- My Reply continued:
- Total over 5.5 million gallons as of January 31st.
- Only 1 metals test from dozens of leachate deliveries
- Young Harris is skating along on an expired, but administratively extended plant permit, testing does not reflect the "**significant industrial user**" (EPD's words) load that it accepts.

Leachate Dumping in Young Harris

- Callie Moore reply:
- Her info is from 2019
- Surprised by my new data - YH has substantially increased leachate.
- Will look into, additional metals testing may be needed.
- I volunteered to be water monitor: Info forthcoming as June training workshops approach.

ALL - Please Volunteer!

Biden Radial Nominees - ONE GONE

- Nancy Abudu: Nominated as judge on the 11th Circuit Court of Appeals.
- Currently works for Southern Poverty Law Center, left-leaning litigation firm infamous for branding mainstream conservative and Christian nonprofits as “hate groups”
- Gigi Sohn: **WITHDREW**. Nominated to FCC. With the FCC’s current 2-2 split, confirmation would give her power to continue the Biden administration’s push for censorship of conservative content.

Bank Troubles

- Out of control federal spending → out of control inflation
- Fed raising rates as tool to control inflation (not working)
- Result: Banks' bond assets losing value → bank failure
- Banks are also ESG / DEI dominated, investing in “woke”
- Making decisions based on “woke”, not on financial best interests of depositors and stock holders.
- **Debt limit debate - Budget MUST be cut substantially.**

ESG Rule

- House and Senate passed a resolution of disapproval to overturn the Department of Labor's environmental, social, governance (ESG) rule
- Block DOL politicizing the retirement investments of 152 million American's 401(k) & 403(b), prioritize ESG factors over maximizing financial returns.
- Gone to Biden's desk - he vows to veto, but has not done so yet. House & Senate Override

W.H.O. Pandemic Treaty

- Biden regime negotiating “provisional agreement” (treaty) for WHO control during pandemics.
- Cedes U.S. sovereignty to WHO in matters of:
 - Countermeasures, Lockdowns, School / Business closure, Vaccination, Population surveillance.
 - Give 20% US medical supplies to WHO for distribution.
- WHO is heavily CCP influenced.
- Call your Representative & Senator – **Tell them NO WAY!**

More Legislation

- **S. 316, Repeal 1991 and 2002 Iraq Authorizations for the Use of Military Force, or AUMF.**
- **Protection of Women and Girls in Sports Act: Sen Tuberville, AL (S. 613/ H.R.734.)**
- **Disapproval resolution on WOTUS rule (H.J. Res. 27)**
- **Disapproval resolution of the D.C. Council's Criminal Code (H.J. Res. 26)**
